OR

### **US Intolerance Testing LLC**

8480 Baltimore National Pike, STE – 3210 #212

Ellicott City. MD, 21043

## INSTRUCTIONS

Tests only require a few hairs (3 / 4 strands) if hair is longer than an inch. We test any form of hair from your body.

- Ideally, samples should include the hair root, however we understand it is not always possible.
- If cutting the hair, please ensure you cut as close to the root as possible.
- Hair dye or treatments do not affect testing.
- Once hair sample is collected, place the strands into a small seal-able bag ensuring the hair remains dry and secure during transit. Do not send hair samples in metal foil or other metallic packaging.
- Place hair samples in a small secure envelope or postage wallet and post to our lab.
- Please ensure correct postage is paid. Incorrect postage can cause delays to the processing time.
- Please be careful not to include other items in the same bag as your hair sample as this can affect testing.
